Principal's Message

Creativity is seeing the same thing but thinking differently.

---APJ ABDUL KALAM

Welcome to Kendriya Vidyalaya School, Longowal. KVS pride itself on being a caring community of learner that fosters pride in each student's developing abilities while promoting social development. We build the essence of community each day in every classroom touching all of our students. We know that no meaningful learning can happen unless students feel safe. We use the Responsive Classroom approach to teach children to act responsibly, take responsibility, and treat each other with respect.

I appreciate the sincere teamwork of the members who have put a lot of efforts to bring forward this e-newsletter.

There are multiple benefits of collaborative teams versus individuals working independently. We notice an increase in creativity due to the sharing of different ideas, experiences and expertise. Every employee brings a certain body of skills and knowledge to the group. Shared knowledge and complementary skills are strong tools to be used to handle complex projects and assignments. The more the team talks about a project, the more ideas are generated. Having the perspective of several colleagues trumps the individual having only one set of ideas.
